Job Placement Team

Dear/Sir

I am writing to apply my interest position posted or advertised on the DBE portal for **Dire Dawa District Audit Team Managers**, to contributing my expertise and experiences towards achieving the vision of our Development Bank of Ethiopia.

I accumulated more than 20 years of experience in DBE in different working units with different working experiences in a variety of positions. Over a half of the above experience, I have been working as Accountant position more than three branches since April 2001 (Agaro, Wolayta Sodo, Dire-Dawa as Permanent Accountant Mettu, Chiro & Harer as relief Accountant) in those branches have almost 14 years consecutive years as Accountant position.

DBE set a Vision to be achieved in 2030, “To be a World Class Development Bank that Help to Achieve Ethiopia’s Economic Transformation Vision by 2030”. In relation to this, If I get the position of as Audit Team ,as Auditors to assure that I will strive to avoid Corruption by controlling both the Financial & Operational Activity ,Striving against Violation to the standards, the Bank`s policies and procedure, to the conditions for disbursement, payments from current accounts, from issue accounts and from any other savings or demand deposits is one of my focus areas. As it is well known, the auditor is responsible for Standards of Audit; forming and expressing opinions on the financial statements. The auditor would carry out the audit of the unit/s in accordance with the International Standards on Auditing (ISA), as promulgated by the International Federation of Accountants (IFAC).

Therefore, I believe that combination of experience, skills and a positive attitude makes me passion for Bank’s valuable mission and Vision and success achieving our vision without hesitation.
