Dear/Madam/Committee

I am writing this letter to express my enthusiasm for the position of **Manager, Other Agriculture Team I - CRM Division** posted on DBE recruitment application portal. I am equipped with analytically, quantitative, and human relations skills to make sound and responsible decisions and able to identify economic and management problems in agricultural sector and after critical thinking and analysis, generate feasible alternatives and come up with the most appropriate solution. The amalgamation of my educational careers especially in the fields of Crop Production and Management, Agricultural marketing, Farm management and Agricultural Project Planning and Analysis, and my work experience on project rehabilitations and loan recovery as well as loan officer will be a unique and enriching the position. I have experienced that to achieve success; team work is the correct way to go and I believe that strong relationships with all in the organization take not just the Bank but the entire workgroup too towards the success. I passionately will serve our bank towards perception of high level performance and optimum profit to ensure sustainability through timely and full-fledged follow up projects and NPL reduction and rectifying system problems in general. I am confident that my exposure and knowledge will be an asset for organization as well as in the sector. I have taught myself to work cross-team and make friends in the entire organization and I can also achieve the targets by working independently too.

I am confident you will find me a perfect fit for the position.

Thank you for your consideration. Sincerely Yours,

EDO JIMA ROBELE
