Placement Team for Managerial Position

Development Bank of Ethiopia

Addis Ababa

Dear Placement Team,

It is with great pleasure to apply for the position of **Manager, Technical Team_Gondar District** posted on September 21, 2021 in URL link (<https://jobs.dbe.com.et>). I was appointed as Sr. civil Engineer almost the last six years and still working on same appointment and excited when posted about this placement opportunity as I am eager to lead and motivate a team to provide technical support, valuation of an in kind equity contribution, to check the appropriateness of constructions, assessing, inspecting, & reviewing engineering documents as per the requirements of the organization to ensure mission and values of DBE.

Highlights of my credentials:

Diploma in Agricultural Engineering certificate from Hawassa University

Degree/BSC in Urban Engineering at Ethiopia Civil Service University

Attending all MSc courses in Geotechnical Engineering except research paper at Bahir Dar University

I have worked closely with those multi disciplines as a surveyor, material engineer, Structural, & Architectural Engineering with more than three years and providing technical support as Sr. civil engineer at development bank of Ethiopia with almost the last ten years. In addition, I have a potential to work on different structural, architectural, water work, geo special softwares like GIS, CADs, SAP, MATLABs, FLACS, GEO_ STUDIO, IN ROAD, surfer & others. So I believe that my skills, experience and track record make me an excellent fit for this position.

So I believe that my skills, experience and track record make me an excellent and strong personality, accountability, & integrity for ensuring both team members & myself in a professional & ethical manner to fit the position.

If my credentials and strong understanding of responsibilities of technical team manager are well matched to the needs, please contact me at teshageras@dbe.com.et or +251938263622.

Thanks very much.

Sincerely,
