Placement Team -Managerial Position

Development Bank of Ethiopia

P.O.Box 1900

Addis Ababa

Dear sirs,

It is my pleasure to apply for the position of Manager, Technical Team, Hawassa- District.

It has been over 7 years that I have been associated with DBE. I joined the bank with an officer position of Agricultural Engineer. I was promoted to the position of Senior Agricultural Engineer as of December 2015 and have been working on this position for more than five years. In addition, I had been delegated on the same position of **Technical Team Manager** on March 05, 2020 and have worked as acting Technical Team Manager till May 30, 2021 as can be referred from HR directorate.

Previously I have worked in the North Wollo Department of Agriculture and Rural Development Offices in different positions and as well, in Save the Children International in North Wollo and Wag Himra Zones. My experience as a civil servant especially on the position of Head of the Desk of Environmental Protection, Land use and Land Administration in which I served more than one year, as a leader has gained me a lot in developing my managerial careers.

All in all, I have got more than 2 years of experience in leadership including the delegation on this position and hence I am grateful for your consideration for the post so that I can serve the bank with the best of my skill and experience.

With respect to my education, I am attending my Msc. in Rural Development, completed courses and am working on my thesis to finalize in this Ethiopian year.

Sincerely,

Belihu mekonnen
