

Date: 12/10/2021

To: Development Bank of Ethiopia
Addis Ababa

Dear Madam/ Sir;

I am writing this letter of intent to express my desire & inspiration to be chosen for the position of **Manager, Crop Production Team I- Workout Division** in the Corporate Agricultural Financing Cluster “as a replacement for my previous intent letter dated 28th September 2021 for the position under Development Impact Evaluation Division since the minimum criteria has changed now”.

My educational back ground is 1st Degree in Agricultural Economics. I have total work experience of more than 10 years out of which 6 years and 9 months in DBE starting from Trainee Junior Officer to the current senior position. Work unit-wise, 3 years & 1 moth experience in Research & Project Data Management from Trainee Junior to Senior Officer Poison level while the rest 3 years and 8 months experience is in CRMD-II as a Senior Loan Officer. Furthermore, I took different short-term trainings which developed my career skills.

Corresponding to the current Bank’s special attention to the agricultural financing cluster to promote major goal of national development agenda, my well developed experience and knowledge on commodity study and project financing in line with my educational background makes me to fit the manager position and contribute my knowledge. My vision is to effectively contribute my good ethical behavior, hard work habit, good team work habit, good communication skill, good problem-solving and management skills, my knowledge and experience to the Bank’s highly valued objectives, successfulness of all financed projects and rehabilitating sick projects.

If I get the chance to the position, I can achieve the Bank’s reform objective through leading the team in planning, directing, organizing, coordinating, supervising and facilitating the rehabilitation of the sick projects as per the Bank’s policy, procedure and directives. Moreover, in collaboration with the Project Follow-up Division, I investigate the projects with the sign of sickness and advice appropriate corrective action (or recommendable treatments) prior the project’s transfer to Rehabilitation Division.

I believe these skills combined with my past experience and deep knowledge of the project financing, would allow me to be nominated substantially to the Manager, Crop Production Team I- Workout Division of the Corporate Agricultural Financing’s position recently posted by the Bank.

Sincerely

Dereje Feyissa
Sr. Loan Officer at CRMD II
