

Name:-Temesgen Bayisa

Subject: - Letter of Intent for vacancy application of manager, Crop production Team I Follow up division

I am a successful business professional with a proven track record of business growth and multi-national corporations. I would bring my knowledge to our Banks in the capacity of Managerial position. I have a vision to make DBE competent bank at international level by performing my duty and responsibility.

As such here are the skills I will bring to our Bank

- I have Strong commitment to the Industry, having contributed my knowledge in the managerial category in a variety of roles and capacity.
- Solid managerial back ground and the savvy to implement, understand and trouble shoot marketing operations while achieving business growth increased market share resulting in profitability.
- More than 14 years of total experience in the bank and outside the bank, forward thinking initiatives that exceed the current status of the Bank to deliver profitability and achieve sustainable growth.

More over recently the bank has approved reform plan to make the competent Bank with similar banks at International level. My experience held in a volunteer capacity with our organization further bolsters my qualifications and aptitude to complete the job requirements.

I deserve the place for manager, Crop production Team I Follow up division because of

- I have educational back ground of Plant science.
- In the area of Credit I acquired more than fourteen years' work experience and taken different short term training on the title of leader ship.
- I have managerial experience position more than five years form outside the bank in micro finance Institution
- In the development Bank of Ethiopia I have been working as loan officer, senior research officer and at managerial position by delegation for eight months.
